Partnership for Observation of the Global Oceans and Scientific Committee on Oceanic Research
Visiting Fellowship Programme 2017

Objectives
- Promote training & facilitate capacity building
- Advance sustained global ocean observations & their applications

What does the fellowship offer?
- 1-3 month visit to another oceanographic institute anywhere in the world
- Training on any aspect of oceanographic observations, analyses, and interpretation

It is NOT meant:
- For an academic course of study
- For pure research

Priority Areas
- Fixed-point time-series observations (e.g. contributing to OceanSITES, ChloroGIN, Antares)
- Large-scale, operational biological observations including biodiversity (e.g. Continuous Plankton Recorder)
- Emerging technologies for ocean observations
- Coastal observations/ Coastal zone management
- Oxygen and Other Biogeochemical Sensors on Floats and Gliders
- Time series measurements of N₂O and CH₄
- Ocean observations and modelling in the Indian Ocean
- Ocean and coastal modelling
- Optical measurements of living and non-living particles
- Data management
- Argo floats & gliders

What is covered?
- International airfare
- Transport from airport to host institution
- Contribution towards living expenses

What is NOT covered?
- Domestic travel in host country
- Visa costs and insurance
- Salary/bursary
- Training costs

Who can apply?
- Scientists
- Technicians
- Postgraduate students
- Post-doctoral fellows
...from developing countries and countries with economies in transition.
Priority is given to early-career scientists

What is needed to apply?
- Application form
- Letter of recommendation
- Letter of acceptance from prospective host
- Quote for flights

Deadline: 7 April 2017
